**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
  
2. Authorization for this examiner's amendment was given in a telephone interview with Jianming Hao on June 21, 2007.

Claims 1, 29 are directed to an allowable linking claim process. Pursuant to the procedures set forth in MPEP § 809, claims 5-15, 33-41 have been rejoined and fully examined for patentability. As provided in MPEP § 809 "When all claims directed to the elected invention are allowable, should any linking claim be allowable, the restriction requirement between the linked inventions must be withdrawn. Any claim(s) directed to the nonelected invention(s), previously withdrawn from consideration, which depends from or requires all the limitations of the allowable linking claim must be rejoined and will be fully examined for patentability. Claims 1-15, 29-41 are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Given the indication of allowability of the linking claim(s), the restriction requirement as to the linked inventions shall be withdrawn and any claim(s) depending from or otherwise requiring all the limitations of the allowable linking claim(s) will be rejoined and fully examined for patentability in accordance with 37 CFR 1.104.

Applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, the allowable linking claim, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Where a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

The restriction requirement between the sequences has been withdrawn. The restriction requirement between product and method has been maintained.

3. The application has been amended as follows:

A) Claims 16-28, 42-51 are cancelled without prejudice.

4. The following is an examiner's statement of reasons for allowance.

Claims 1-15, 29-41 are drawn to a method for preparing an array by amplifying a variable region from DNA from a known plant and designing primers containing 1 forward primer and a plurality of reverse primers to obtain DNA fragments having different sizes and dotting the fragments on a support.

The prior art teaches amplifying nucleic acids from plants and dotting the fragments on a support.

The prior art fails to teach using 1 forward primer and a plurality of reverse primers to obtain DNA fragments having different sizes. The prior art fails to teach or suggest using 1 forward primer and a plurality of reverse primers to obtain DNA

Art Unit: 1634

fragments having different sizes. Thus, the claims are novel and unobvious over the prior art.

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner Jeanine Goldberg whose telephone number is (571) 272-0743. The examiner can normally be reached Monday-Friday from 7:00 a.m. to 4:00 p.m.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ram Shukla, can be reached on (571) 272-0735.
